Implementation: The Township's Animal Control contractor (Animal Services), Police Department or other representative as designated by the Township shall administer and implement the programs set forth in this chapter in accordance with applicable guidelines and standards as set forth in the state and local statute.

94-55. General Regulations for Community Cats

- A. The Township establishes the following community cats' requirements:
 - 1. Community cats may be cared for on the private property of the caregiver or upon the property of another with the permission of the owner or property manager.
 - 2. All community cat caregivers shall make reasonable efforts to have all free-roaming cats within their care sterilized, vaccinated against rabies and ear tipped at their cost for easy identification.
 - 3. All community cat caregivers are required to make reasonable efforts to provide certain necessities to each community cat under his/her care on a regular/ongoing basis, including but not limited to proper nutrition, adequate quantities of visibly clean and fresh water and medical care as needed. If medical care is unavailable or too

expensive, the community cat caregiver must not allow the cat to suffer and have the cat euthanized at the caregiver's cost. Feeding is permitted during daylight hours only. Food must be offered to cats in a container and shall not be dumped on the ground. Any food remaining after cats have eaten must be removed before dark. Feeding areas must be maintained in a clean and sanitary condition.

E. Healthy community cats shall they stray off the property of the Caregiver/Property Owner shall be impounded. Should a healthy community cat have strayed off of the Caregiver's property and be impounded, prior to being returned to caregiver's property or released to a Caregiver, community cats shall be sterilized, ear tipped while under anesthesia by a licensed veterinarian and vaccinated for rabies, at the Caregiver's cost. If the Caregiver refuses to pay this cost, the cat shall be taken to an Animal Shelter. If the same community cat is impounded more than one (1) time, in addition to the penalty to be assessed for violation of this Ordinance, the Caregiver shall indicate in writing to the Township whether the cate is to be returned to the Caregiver or to a Shelter. If the community cat was then returned to the Caregiver, if the community cat is again impounded, it shall not be returned to the Caregiver but instead taken to an Animal Shelter. Notwithstanding the foregoing, whenever such cat is visibly injured or diseased and appears to be suffering and it reasonably appears that such cat cannot be expeditiously cured and returned to the field, transferred to a humane society or private animal nonprofit organization or placed in foster care, then Animal Services, acting in good faith and upon reasonable belief, shall humanely euthanize the cat upon advice of a licensed veterinarian.
